My special place

My Special place is my old beach house in Michigan. It was the most fun place I have ever been and the most amusing. It was the perfect beach everything was perfect about it it had the walk in beach where there is sand, the water was always warm, and it had a raft out in the lake. We used to play king of the raft of course I never won because I was small and still wore a life vest and the 2 oldest My sister and Cody always won but I always had fun watching. We would usually go there around the 4th of July and saw fireworks blasting in the night sky. We would always go on the paddle boat and paddle around. I don't know why but my sister if she sees a paddle boat she wants to ride it. I had other memories like walking around the corn crops and listening to the water flow in and out from the beach. Also there was a dog that actually swam in the water with all of us and go and get Tennis Balls we threw into the water. I can not figure out what memory is the best so I think that is my special place.
