

My special place

My special place is not a small place its pretty big and its not a place that I'm always there either. In fact I've only been to my special place once. My special place is Albuquerque New Mexico.

The reason my special place is Albuquerque is because when I was little me and my family basically lived with our next door neighbors. They had to kids Rebecca and Estefan. They were my best fiends. We would play every day after I came home from Hollywood and the came from St. Marries. One day When I was about five or six Rebecca told me that they might move to Albuquerque New Mexico to get closer to there family.

About 4-6 months later it had been set they were going to move. I was so sad. They had been there best friends but now they were gone.

The reason my special place is Albuquerque is because when I was little me and my family basically lived with our next door neighbors. They had to kids Rebecca and Estefan. They were my best fiends. We would play every day after I came home from Hollywood and the came from St. Marries. One day When I was about five or six Rebecca told me that they might move to Albuquerque New Mexico to get closer to there family.

About 4-6 months later it had been set they were going to move. I was so sad. They had been there best friends but now they were gone. Then four years later My mom finally said after thousands of can we visit thems she said, "We can visit them this summer!" I was so exited. On June 21 (the first day of summer) we were off. Our path was to go from Riverside to ST. Louis then to oklahoma where we would stay there for one night. Then the next morning we would continue into Texas then eventually New Mexico. When we were in New Mexico we passed a town named..... Vaughn. It was cool to see a town named after me. When we entered Albuquerque I was so exited! We were coming along roads until we came to THEIR ADDRESS! WE GOT OUT OF THE CAR AND RANG THE DOORBELL AND.....THEY WERN'T HOME. I couldn't believe it. We waited and waited and then we saw their car. They pulled in and we all said hi and hugged. We were going to stay one week. During the week we climbed a mountain! It was awesome. We saw this bush that (literally) had over 4,000 ladybugs. I was said to hear though that are basement had flooded but we had a fun week.

When I got home I was sad that I couldn't see them but my mom said that we would see them again.
