My favorite place to be is my room in my bed watching Youtube. My bedroom has whitish blue walls, a carpet, a bunk bed, a closet, the comfiest chair ever, 30-50 stuffed animals (my favorites are my 3 stuffed snakes, bears, tiger, and cheetah). Sometimes I just lie down and go into a deep, cold, hard sleep.

I would recommend it, but it's my room and you're not going into my house to get to it because that would be creepy.

That is why my bedroom is my favorite place to go and just do nothing, but don't come in without being invited, or **ELSE!**

Joshua E.

My favorite place to go is.....my room. I like my room, because I can play on my phone and my computer without anyone bothering me. Sometimes I talk to my friend because we play games where we have to escape prison. Sometimes my friend and I get caught and we both scream as loud as we can. I shut my door so no one can hear me because of this. Also, I like my room because it's always hot in there. I like the temperature now because when I used to wake up on a Saturday morning, it was always freezing in my room. I always had to have a blanket with me. So now I shut all my doors and keep in the heat. Now it's like a desert in there and I like it.

I like my room because it is hot, comfortable, and I get to scream as loud as I want.

Zeke D.

My special place to go is Long Beach Island (LBI). Every year, my family and I go to LBI to have fun and go swimming in the water. My cousins and I love to boogie board on the waves, make sandcastles, and look for sand crabs. At low tide, there is always a sandbar, so we try to go out really far until our parents say to come in and put on sunscreen.

Sometimes we have spaghetti and meatballs for dinner. My dad and uncle take us to the beach to play kickball and to try to find cool sea shells. One time, we were playing kickball and someone was fishing. They caught a baby shark. My cousin then went over to look at the baby shark and he touched it and said, " It was very slimy." Some days, early in the morning, we go fishing before the lifeguard gets there. We don't catch anything, but we have a fun time.

My special place to go is LBI because going there is so much fun. I make so many memories that I won't forget any of them. I love it there so much!

My favorite place to visit is my grandparents condo in Siesta Key, Sarasota County, Florida. My family and I go there once a year for about two weeks. I love the beach there, it is called crescent beach. my grandparents also have a pretty big pool. I always stay in my grandparents condo. If you want to stay in one of the condos, you have to own it. The good news is that there are a lot of hotels near by like the sea shell. I have been to the sea shell. It is a very nice place.

The best part is that I have fun all day. My day goes like this... I wake up at 5:30 and have breakfast with my dad, grandpa, and grandma. At 6:00 my dad, grandpa, grandma, and i go for a morning walk on the beach, we return at around 6:45. At 7:00 my mother and two brothers wake up. We leave for the beach at 7:45, and play there until 11:00. Then we come home and eat from 11:20 to 12:20. Then we go to the pool until 4:00. Next we go to the condo because after 4:00 it usually rains. My grandparents' condo is my favorite place to visit.

Katie P.

My favorite place to visit is St John. It is one of the three US Virgin Islands. There is also St Croix and St Thomas, the biggest island. I like to snorkel in the ocean there, because there are many different kinds of species such as: sharks, octopus, squid, and different types of fish.

The water is also really clear and I can see everything in the water such as coral reefs and fish. The sand is also really smooth and warm. This is why St John is my favorite place to visit.

Noah H.

My favorite place is my room because whenever I want to do something and not get bothered I can just go there. My room is clean small and has many electronics. My room is in the top and middle of my house. I usually watch Youtube or play on my phone while I'm in my room. I always see a TV, phone, desk, and green wall. I would not recommend my room to others because it's mine I don't want anyone to ruin my freedom.

My room is a great place to stay when I'm bored. I can do many things, and I will never get bored within my room. My room is my favorite place because I have the freedom to do whatever I want.

My favorite place is Hawaii. I am especially love the island of Maui. Here I found many relaxing spots, great food, and many fantastic clean beaches. I think that Maui is the best spot in the entire world.

One reason Maui is my favorite spot is because of the kind, loving Hawaiians. I saw how proud they were of their culture, by the way they cooked, acted, and celebrated in their daily lives. I also love Maui because of its natural beauty. There was so much wildlife around me I can't see why someone wouldn't enjoy it. Every time I come here I discover new plants and animals that I wouldn't have seen if I didn't come to Maui. Another reason I love Maui is its unique landscaping. Here I will always find a special nook or tree to read, write, or photograph the plants and animals in Maui. Also I love that in the night I would be able to see the planets and stars of the night sky just from my condo without the use of a telescope. Where I live in New Jersey I can never see the planets and the stars without a telescope because of light pollution. One of my favorite spots in Maui is the Bamboo forest. I love it because when the wind blows the bamboo knocks into each other creating a beautiful sound. At the end of your amazing walk you will find yourself in a clearing that has an amazing waterfall!

This is where my heart lies and my favorite place to be in the entire world. I would definitely recommend Maui for people who

love nature, the night sky, culture, and food because they will fit right in with the people around them. Everyone here will care for you and make you feel like family. This is why Maui is my favorite place.

My favorite place to spend time is my gymnastics, studio. Gymnastics is my favorite thing to do. Gymnastics is one of those things I can't go a day without doing. Many people might ask, "Why would you want to spend your time in the gymnastics studio? Wouldn't you rather be on vacation or playing outside?" To be honest, I actually love being in a gym all day. I love it because my friends are with me and I get to do my favorite thing, gymnastics!

Of course, I like going on vacation, but I'd rather be in a gym for hours and hours. It may seem weird, but I love it. I like seeing the chalky air and working hard on skills for competitions. In the gym, I feel powerful and brave. Gymnastics is my passion and will always be.

Danielle D.

My favorite place to spend time is in Utah. I go with my family, my grandma and grandpa, and their friends. My grandma and grandpa rent a house and we go snowboarding and skiing there. It is a lot of fun. The mountains in Utah are really big. One of the mountains is so big that you need to take a gondola to get to the top.

I usually go snowboarding in Camelback Ski Area in Pennsylvania. I thought their hills were kind of big. When I got to Utah, the mountains there were so big that when I got

to the top I was in the clouds and could barely see a thing. It was so white. When we were all done skiing and snowboarding we would go back to the house and relax and eat dinner. That is my favorite place to spend time once a year.

Joey E.

My favorite place to spend time at is Punta Cana. I went to Punta Cana for a week in November. I had so much time hanging out at the beach. A lot of times my dad and I went boogie boarding. I don't know why I always wiped out and he did not. Sometimes my brothers and I would try to cover are whole body up with sand. One time I was laying down with everything covered in sand except my face while drinking a smoothie.

There was a day where the ocean was so warm. So my aunt, grandpa, mom, dad, and me went on this thing called a banana boat. A banana boat is a float that is tied to a boat.

My Favorite Place

When the boat takes off you go with it. We were making sharp turns, and went super fast. The company who does this suggests that everyone will fall off. But guess what? We did not. Right when we stopped and came close to shore, I stood on the float and jumped into the water. We all jumped in, and when we stepped onto the sand, we were were soaked and freezing.

The last day I was there my brother and I did another float that was a chair. This one fit four people, but only the two of us went on it. This was safer than the banana boat, so we went even faster. Sometimes the chair would jump, and we would be in the air. This was the best vacation ever, and my family and I plan to go there again next November .

Delara C.

My absolute favorite place personally is Kailua Beach Park in Oahu, Hawaii. It is so relaxing and so beautiful. Every year my family goes to a beach house near there. I love every beach but this one stands out to me. I would go to this beach every day if I lived in Hawaii.

The reasons I like this beach are because it is relaxing, peaceful, quiet, and beautiful. This beach is nice to take a nice morning walk. Since Hawaii is in a different timezone than New Jersey, I could take a morning walk on the beach every day. I

would wake up early when there isn't a lot of people on the beach and the sun is rising. It is so beautiful picturing it in my head. Just writing this essay makes me feel like going to that beach.

Beaches, in my point of view, are the most wonderful thing on earth. I like this one because the water is not too deep and that makes it good for families. There is a playground and a lot of sand to play in. I have a big family, so it is perfect for me. I can go wherever I want and most likely one of my siblings will be there. There is also a lot of space for me, so I don't have to be around fighting, screaming, and yelling.

My special place is definitely Kailua Beach Park. It is usually not very crowded and has a lot of space. Even though it is not next door, and I cannot go there every day, it is still something that I admire and personally love.

Quakertown, New Jersey, USA

Today, I will talk about my favorite place in the entire world, Aruba. It is an island in the Caribbean Sea sixteen miles away from Venezuela. The reasons I like it so much are because of the warm climate, the water, and low crime rate. The hot temperature year-round is an excellent spot for my family and me to get away from the two-foot snow piles in New Jersey. The summer gets hot in New Jersey, but not as hot as in Aruba.

The water in Aruba is so clear! I can see for a mile underwater. When I went snorkeling in 50-foot water, I saw all the way to the bottom. I also saw a shipwreck when we stopped from our catamaran. The motto for Aruba is "One Happy Island." The reason for this is because when driving, nobody gets mad. The crime rate is also low because if someone steals, they get a bad reputation on the island as a bad person. Even then, why would they steal? A lot of people have high paying jobs. Aruba is my favorite place, and I hope to go again soon.

Ben H.

My favorite places to be are Folly Beach and Ocean City, Maryland. I love the beach because of the warm weather and water. When I'm near water I feel like I can do whatever I want. I love going to the pier with a fishing pole and making my dad proud. I usually throw the fish back in the water or allow someone else to keep them. Once I caught a piece of rope. I love it when my toes are in the sand, water comes up and washes the sand off, and I see little sand crabs.

My favorite part of going to the beach is jumping over waves or surfing on them. I just love going in the summer down to South Carolina to go see my favorite sister, Yinchu. I love to go to Charleston with them and surf and body board with her husband. When I went there I was scared because there are sharks, and I'm scared of sharks. I learned so much in Charleston. I brought back some fudge for my dad, and saltwater taffy for my mom. I also brought back a smile on my face from seeing my older sister, Yinchu. All of this brings back really good memories.
