

*Al Bashaer*  
Faith & Knowledge

# MY SCHOOL PROJECT

Made by :Salma – Aisha-  
Zeinab-Farida

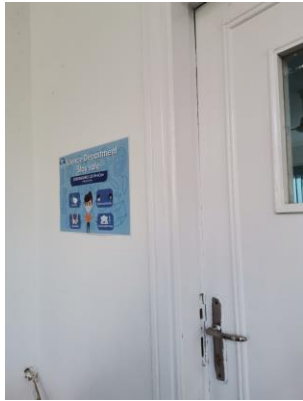

This Was one Of the Science experiments that was to blow  $\text{CO}_2$  into the clear lime water to turbid using a straw.

## School activities

We have lots of activities like introducing our self in the first day of school and Science experiments. We also make English ,Arabic, Science projects.

## Photo of our classroom

This is our classroom. The desks are separated because of the virus (Covid 19)

Our school cares for the virus (Covid 19) they put these signs for our safety

# Our School

## The Things I Want To Change In Our School

- I want the kids to take a device instead of the heavy bags we carry on our back.

Like this or this

## The Good Things In Our School

- We make science experiments.
- There is soccer and volleyball play grounds

- There is also play ground for children

# Our Opinion About Al Bashaer School

- Salma's opinion: I love my School because they care for our safety.
- Aisha's opinion: My opinion about Al Bashaer school is that it is a very good school the teacher are nice the play grounds are very big. The teacher make us understand quickly. Conclusion is that I love my school. But they give us a lot of homework.
- Zeinab's opinion: I love my school my school is very nice I donut want any things to change except the heavy bags and the many H.W
- Farida's opinion: the teachers are caring. And we make new friends.
