

Solving Housing Insecurities

By: Keira Bruen, Kharine Yaye, Edison Wei, Amarachi Okwor, Isabella Campbell, Joel Alvarado (The Stabilizers)

What is Housing Insecurity?

- Housing Insecurity: When the price for housing becomes too high in specific areas.
- It causes many residents to not be able to afford housing necessities
 - Running water, electricity, insurance for their house, etc.

Taking Initiative

Nationally:

Non-profit organizations

Financially Supported by president

Locally:

Less anti-homelessness architecture

More shelters around the area

Financially Supported by Mayor

Globally:

Financially supported by government and nations around the world

Support of wealthy people to gain awareness

Combination of Nationally+Locally

Funding & Advertisement

- All of these funds could come from all these people in power like community, government, and companies within the area
- There is also some way we could bring in the actual civilians or people in charge of some of these housing like realtors, Architects/Home Designers, and even some activist as well
- We could also educate all of these people to make them more aware of what they are doing and people are suffering

Stakeholders

Others that might be stakeholders could include...

- Real Estate Agents
- Buyers
- Landlords
- Major Companies

These are the people who would be affected if we were to change the housing insecurities

Founders/Possible Partners

- Founders (BLS Students):

- Keira Bruen
- Kharine Yaye
- Edison Wei
- Amarachi Okwor
- Isabella Campbell
- Joel Alvarado
- AKA The Stabilizers

- Possible School Partners: Troyeshchyna Gymnasium, Kyiv, Ukraine, Student Work for: Aga Khan School Garden, Karachi, Pakistan

- We can address the issues of how these horrible circumstances lead to people with housing problems and way to solve them
- We would also like for anyone who isn't on this possible list to reach out if you think that your topic could relate
