Life can be  
absolutely  
phenomenal , and  
it should be, and it  
will be, when you  
start using the  
secret.

## Creative Process

**The Three Steps to Whatever  
You Want to Be, Do, or Have.**

**The Creative Process is  
conceptually a simple one. It  
consists of just three steps:**

- **Step 1 (your work): You ask.**
- **Step 2 (not your work): The answer is given.**
- **Step 3 (your work): The answer, which has been given, must be received or allowed (you have to let it in).**

# The Law of Attraction

## wOrDs WoRdS

The words we think and use generate the vibration we send out. The word "homework" can cause some people to have a negative vibration and others to have a positive vibration. The word "money" can hold a positive vibration for some people and a negative vibration for others.

- The law of attraction responds the same way your mind does: it hears what you don't want. When you hear yourself make a statement containing the words don't, not or no, you are actually giving attention and energy to what you don't want.

- Here's an effective and easy tool that will help you reduce and eventually eliminate the use of the words don't, not and no from your vocabulary. Each time you hear yourself using these words, ask yourself, "So, what do I want?" . Each time you talk about what you don't want, in that moment you are giving it your attention and energy. When you ask yourself what you do want, the answer will have created a new sentence with new words. When your words change, your vibration changes and the best news of all is that you can only send out one vibration at a time.

## Three Causes for Why Do You End Up Attracting Things you Don't Wish

### 1. skewed beliefs:

What you believe in or have faith in has a lot to do with what you attract. Don't mistake beliefs and wants. They are completely different. It is possible that you crave for things, but in your heart and mind you know you are not qualified to have it.

### 2. Incorrect attitude:

Your beliefs lead you to behave and act in a particular fashion. Each action or task you have performed in your life has borne a result. It is these actions and your attitude that has a big hand in attracting what you want. If they are appropriate to attract what you want, you will definitely have it, else you will never have it.

### 3. Accepting defeat:

Perseverance is the key if you want to attract something. You can never attract what you want if you accept defeat before you get it. You have to pursue it until you achieve your goal.

## How realistic you think it is?

### From: Al Ahd Al Zaher School.

Some of my students are deeply into the idea, while the others are totally against it. The ones who disagree with it, say that we have the secret in another way. We ,as Muslims, have the idea as in believing in God, believing in the good and bad. We have always to look at the good side of the bad things, and we should be patient and surrender to God's will, because he is the creator, and he knows what is best for us. We may see things negatively, and feel sad the moment they happen to us, but we don't realize the good points until late. Then, we say thank God that this thing has happened to us, otherwise we would be in trouble.

As for thinking positively, God emphasizes this idea in Quran, and prophet Mohammed as well. As he says, " Think of the good, and you will find it". It doesn't mean that we will find all the good things, it means, that if we come across problems, we will not look to them as problems since we are thinking positively. We will always see the good things even in the bad things. There is no mere evil, nor mere goodness.

The law of attraction is not realistic, because if we have vivid goals and have the will to achieve them, we will obviously work hard to achieve them. That's why we pay attention to everything we want. everything is actually in front of us, but we will not notice them until we want them.
