

# The Farm

I like the farm because it is always fun being there. Also I love to see my family and helping them with all the stuff. I love the beautiful flowers my Uncle grows. All the animals are so cutie and fluffy. It is just so fun being there. My family gives us eggs, tomatoes, snap beans, and many more. The animals are just so cute I want them as a pet. I can not have any more pets because I have a cat. My cat acutely got my cat from my grandparents farm. That is also why I like the farm. Lastly, I love how it very calming to me. That is why I like my grandparent's farm.
