

Riverside Brook  
Field High School  
is my special  
place.

↑  
This is my special place, specifically the gymnastic room. It feels like my home. A reason why it feels like home is because I do gymnastics there. I have been doing gymnastics here since I was 2 years old, so I'm there a lot. I spend six hours there a week or more in the summer. It feels like I belong there. I don't know every place and class in RB but I do know where some classes and rooms are, like basketball courts, trainers room, field house, swimming pool, fitness room, dance and ballet room. So this is my special place to be at and where I most feel comfortable. But one of my favorite things to do there is watch the football games and see my friends!
